

A New

Educators

Delivering on the Promise

Now, more than ever, children with disabilities need teachers who are committed to them and their families to help them realize their potential and become contributing members of the communities.

" I have learned so much in these courses and am extremely grateful for the opportunities that they brought to my life... I learned a great deal about MTSS and was able to share a great deal of information with my colleagues and school community...I learned the importance of progress monitoring and fidelity of instruction... I had to try the things I learned or discovered in each of these courses as soon as I returned to my classroom and school."

Alicia, 2014

OVERVIEW

The Intervention Specialist certificate provides students with the opportunity to develop advanced problem-solving skills to target appropriate educational interventions in reading, mathematics, and behavior. Students who earn this certificate will acquire knowledge, skills, and competencies for working with all students within an intervention framework. This is a multi-disciplinary certificate and includes coursework in exceptional student education, school psychology, reading education, and math education.

Required Courses 12 Credit Hours

EEX 6218 Diagnostic Assessment and Intervention Planning in Exceptional Education (3 credit hours)

MAE 6517 Diagnosis/Remediation of Difficulties in Mathematics for the Classroom Teacher (3 credit hours)

RED 5517 Classroom Diagnosis and Development of Reading Proficiencies (3 credit hours)

SPS 6700 Advanced Psychoeducation and Data-based Decision Making (3 credit hours)
